March 8 at 11am.**

## **A New Year and a New Direction at Prime.**

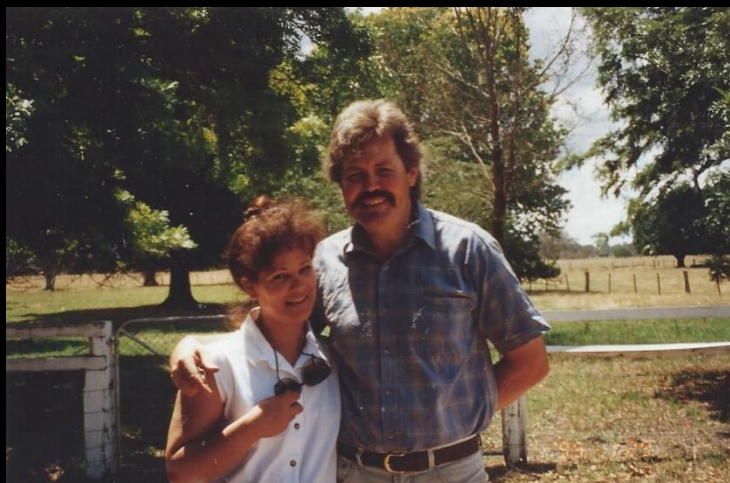

Welcome to the 2018 autumn bull selling season. How quickly it seems to come around.

After a late but brilliant spring growing season, the bulls were weaned mid-December, two weeks later than usual. Weaning weights were considerably heavier than last year and the boys are looking good.

After a long association, we would like to thank John and Anna Atkins for their involvement with our sale for the past 11 years.

We would also like to welcome Michael and Marion Glasser and the team at GTSM, who will be running the 2018 sale. Michael's auctioneering skills are legendary, and he is sure to make sale day a memorable experience. More information about changes including new payment options etc will be included in the sale catalogue. We will also be available to answer questions at Beefweek or at any time by appointment. Follow us on Facebook for more regular updates.

## **That was then. This is now.**

20/01/1993 – A new life in farming begins.

20/01/2018 – Celebrating 25 years at Glenwellyn.

### **All about the Dams.**

Each year we produce heavy weaner calves capable of being sale bulls in three months. It wouldn't be possible without their extraordinary mothers, who do most of the hard work for us. The 2 Pictured; K31, dam of Lot 23 (left) and K94, dam of lot 17 (right).

### **2018 Featured Sires.**

- Thomas Up River. Calving Ease with top 1% 400Day Growth and superb muscling.
